Template Sewing Box Llama

You also need:

Pencil, scissors, craft knife, cutting pad, strong transparent paper, liquid glue and folding bone.

Instruction:

1. Transfer the template onto transparent paper and cut it out as a template. Transfer the template for the basic body onto the corresponding paper and cut it out using a ruler and a handcraft knife.
2. Draw the dotted lines with a folding bone and fold over. Punch holes with the eyelet at the given markings. Cut two slits in each lid at the markings, put the paper strips through and fix them on the back.
3. Glue the boxes together according to the template. Connect the connectors with a "Brad" according to the template.
4. Cut a small piece of wood from the motif photo cardboard and attach it to the handle with a piece of jute.
5. Decorate as desired with accessories and a lettering.

*Attention! Not food safe!
Please only fill with packaged goods.*
